STUDENT FINANCE EXPLAINED

While at university or college you'll have two main costs — tuition fees and living costs. Most students won't have to pay anything up front.

Depending on your circumstances, your course and where you study, you could get a range of financial support.

The main types of finance are **tuition fee and maintenance loans** (which have to be paid back), and **grants and bursaries** (which don't).

There's also extra support for those with special circumstances, for example, if you have children or adult dependants, a disability, mental-health condition, or specific learning difficulty such as dyslexia or dyspraxia.

Repayments are based on future earnings and not on what you borrow. You only repay once you have left university and are earning more than £21,000.

So make sure you do your homework and find out about student finance — everything you need to know is available at
